Introduction

Introduction

Assalamualikum, my name is Rahat Zaman. I have recently completed an internship at Aeroness International Limited, an emerging **Airport Engineering solutions** in Bangladesh.

I will now present what I have accomplished during my 6-month internship at Aeroness International Limited.

02

Company Profile

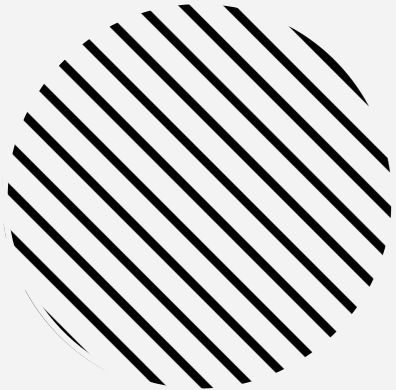

About Aeroness International Limited

- AERONESS is focused on Airport Engineering solutions and overall Airport Facility Improvement and Railway Signaling Works
- AERONESS International initially commenced in 2003 as a proprietorship business. In 2010, it merged with Expo Group.
- Transparency | Excellence | Passion | Ownership
- This company specializes in experienced with Radar/Navigational Aids, FIDS, CCTV, Baggage and Cargo Scanning, Baggage Handling systems (BHS), Boarding Bridge, Airfield Ground Lighting Systems and Flight Calibration of NAVAIDS

03

Period of Learning

Activities during internship

- I initially met with the CEO of Aeroness and was instructed to learn HTML,CSS and JS..
 - I was given one month to become proficient in these technologies.
 - After the month was up, I was assigned to a team, and my journey of project involvement began.
-

Technical Growth

Technical growth

Radar

I am working with my teams in this project as a communication Engineer.

- a. Separation: ATC systems ensure a safe distance between aircraft to prevent collisions.
- b. Communication: ATC facilities maintain communication with pilots throughout flights.

04

Non-Technical Growth

Non-Technical growth

- Self-confidence
- Teamwork
- Communication skill
- Professional relationship

Thanks!
