## Experience

### Smart Eye Checkup

09/2023

Daffodil Institute of IT  
Dhaka

1. Deep learning model which classifies between normal eye and a diseased eye has been successfully built.
2. The model will be able to guide the users to know their eye condition (for specified eye disease namely cataract).
3. The model is cost effective and has simple interface.
- 4.The model shares the details of the nearby eye doctors to the use to get their eye check-up.
